

Open day success at 1st Call clinic

**By Michelle Hafez
and Nicola Shallicker**

1ST CALL AESTHETICS has moved from premises in Library Street, Wigan to a more spacious and modern setting on Wallgate, Wigan. They held an open day to celebrate the move on Thursday 21st January between 10.00a.m. and 2.00p.m.

Customers and passers by were invited into the clinic to have a look around, whilst Emma and her staff provided refreshments along with demonstrations on some of the

treatments available including reflexology, microdermabrasion and teeth whitening, botox and dermal fillers.

Emma Daly-Atkinson, R.G.N. BSc (Hons), Aesthetic Nurse Consultant and Independent Nurse Prescriber who owns the business gained her nursing degree in the RAF and has been nursing for 10 years working in the RAF and private cosmetic hospitals. Emma has also been back to university (Edge Hill) to complete a nurse prescriber's course and can now prescribe a wide range of prescription medicines.

Emma is a Specialist Aesthetics Nurse who is highly trained in a wide range of treatments including botox, dermal fillers, non surgical face lifts using a mixture of fillers and botox, lip enhancements and chemical peels.

Emma has eight staff but thinks of it more as a family run business as her husband Paul, mum Sandra and sister Sarah all work with her along with Karen, Naomi and Sharon. Emma said, "It is unusual to have such a Cosmetic Clinic in a town you would normally have to travel to a city such as Liverpool or Manchester, so I think that is why the clinic works so well in Wigan as it is on most people's doorsteps and in the middle of the two cities with easy transport links and parking.

Paul Daly-Atkinson does all the marketing and office administration.

Sandra Daly manages all the beauty, health and nutrition and is also the Teeth Whitening and Microdermabrasion expert. She has had several years experience in the industry. Sandra said, "Clients can come to us for a free no obligation consultation we can then discuss and give advice on all treatments we offer.

Sarah Daly is the nail technician and has been in the business for three years. She offers different treatments from acrylic nails,

party nails and teeth whitening.

Naomi Harrington works part time as the Complimentary Therapist offering reflexology and aromatherapy. Naomi said, "I really enjoy helping people to relax, it is a great feeling knowing they have come to the clinic stressed and go away feeling much better about themselves.

"It also keeps me relaxed as well."

Karen is a Councillor and hypnotherapist who deals with smoking cessation, diet, stress and much more.

Sharon and Graham Logan are advisors for the Perfect Lifestyles Natural Health and Wellbeing who provide advice and products for a healthy lifestyle.

For appointments or consultations telephone 0845 643 1679 or call into the new premises at 7a Wallgate, Wigan, WN1 1LD..
